

CONFRONTING COVID

MRIGLOBAL'S SIX-WEEK WEBINAR SERIES

Register Now for this exclusive webinar series

Join MRIGlobal experts as they spend six sessions in the coming weeks discussing their science-based approach to confronting COVID-19. Our experts will provide clarity in an often confusing context of changing and conflicting data.

Ask our experts your COVID-19-related questions, and learn how other organizations are responding to the challenges of this pandemic.

Each webinar will include a Q&A session and a two-way discussion session that invites peer-to-peer conversations and an opportunity to dive deeper into the week's topic.

FEATURED SPEAKER:

The first webinar in this series will feature speaker Gene Olinger, Principal Advisor at MRIGlobal, as he dives into the current COVID-19 landscape. Gene received his Ph.D. in Immunology and Microbiology from Rush University Medical Center in Chicago, IL. Dr. Olinger has deep expertise in infectious disease and served a key role in the development of Zmapp Ebola Virus Disease treatment used in West Africa.

This six-part webinar series takes place on Wednesdays 11:00 AM – 12:00 PM CDT. Register now to access all six webinars. We look forward to an engaging discussion that helps to inform the COVID-19-related decisions your organization is facing.
